REPORT

ON THE

Administration of Cochin.

FOR

THE YEAR 1045 M. E. 1869–70 A. D.

ERNACOLLUM:

PRINTED AT THE COCHIN SIRKAR PRESS.

1871.

REPORT

ON THE

Administration of Cochin.

FOR THE YEAR 1045 M. E. 1869–70 A. D.

Legislative.

No enactments were passed by His Highness the Rajah in the year under report, but several measures of an important nature are under consideration.

Judicial.

CIVIL JUSTICE.

2. The subjoined Table shows the number of Original Suits pending at the commencement of the year under review, the number filed and disposed of, and that remaining at the close of the year.

Years.	Courts.	Pending.	Filed.	Total.	Disposed of.	Remaining.
1044	Zillah Courts......	324	488	812	494	318
	Moonsiffs' Courts..	1,068	4,361	5,429	4,405	1,024
	Total..	1,392	4,849	6,241	4,899	1,342
1045	Zillah Courts.....	318	578	896	508	388
	Moonsiffs' Courts..	1,023	4,921	5,944	4,736	1,208
	Total....	1,341	5,499	6,840	5,244	1,596
	Difference in 1045.	-51	+650	+599	+345	+254

3. It will be observed that the files of Original Suits have been heavier than in the previous year by 650, the increase in the Moonsiffs' Courts being 560 and in the Zillah Courts 90. The increase in the former Courts was, however, only 13 per cent of the number of Suits filed, while in the latter it amounted to 18 per cent.

4. Of 6,840 Suits on the Files of the Zillah and Moonsiffs' Courts inclusively, 5,244 were disposed of or 345 more than in the previous year. The Files of the Moonsiffs exhibit a larger amount of work done than that performed by the Zillah Courts, as the former decided 331 Suits above the number disposed of by them in 1044, whilst the increase in the case of the latter did not exceed 14.

5. Although the ratio of disposals by the Moonsiffs was about 8 per cent and by the Zillah Courts 3 per cent above the number in the previous year, it is necessary to notice that the majority of Suits coming before the Moonsiffs are of a simple nature, not involving points of contention that demand the searching and lengthened investigation very often required in the more important cases under litigation in the higher Courts.

6. Of the 5,244 Suits which were disposed of, 581 were withdrawn or dismissed without trial, 3,504 were decided *ex parte*, and the remaining 1,159 cases were contested. Of the contested Suits 670 were adjudged for the Plaintiffs, 351 for the Defendants, and 138 partly in favor of both litigants.

7. The number of Original Suits pending at the end of the year was 1,596 which is 254 more than at

the close of 1044, but this increase is accounted for by the large accessions to the Files already referred to.

8. In the Zillah Courts there were preferred against the Moonsiffs' decisions 286 appeals, and 27 remained undecided at the close of the previous year, making a total of 313 appeals. Of these, 37 were pending at the end of the year and the remaining 276 were disposed of as follows:—

Confirmed	96
Modified	52
Reversed	81
Remanded	18
Withdrawn or dismissed without trial...	29
	276

9. The number of Appeals and Special Appeals admitted and disposed of by the Appeal Court in 1044 and 1045 will be seen from the following comparative Statement:—

Years.	Courts	Pending.	Filed.	Total.	Disposed of.	Remaining.
1044.	Appeals	55	131	186	120	66
	Special Appeals	6	59	65	59	6
	Total...	61	190	251	179	72
1045.	Appeals	66	187	253	148	105
	Special Appeals	6	61	67	30	37
	Total...	72	248	320	178	142
	Difference in 1045...	+11	+58	+69	−1	+70

10. The number of Regular Appeals preferred in the Appeal Court in the year under report, as shown by the above table, was 187 or 56 cases in excess of those of the previous year, giving a ratio of 22 per cent of the contested Suits in the Zillah Courts. Of these, 41 were appeals from decisions of the Trichoor and 146 from those of the Anjeekaimal Zillah Court; and as the contested cases disposed of by these Courts were 110 and 187 respectively, the appeals were in the ratio of 37 and 77 per cent of the decrees passed by them in disputed Suits.

11. One hundred and forty eight decisions were passed by the Appeal Court on Regular Appeals, and of these 46 per cent were in confirmation, 23 per cent in modification, and 20 per cent in reversal of the original decisions, and 11 per cent were amicably adjusted or otherwise disposed of.

12. The number of Special Appeals instituted was nearly equal to that admitted in the previous year, and the small difference of two cases does not call for any remark.

13. The cases remaining on the file of the Appeal Court at the end of 1045 exceeded the number at the close of the previous year by 70, although the decisions were nearly equal in both years. This excess is attributed by the Court partly to the increase in the number of appeals, and partly to the circumstance of a large proportion of them having been preferred towards the close of the year the hearing of which had necessarily to be postponed to the following year.

14. The arrears, however, appear to have been reduced by the disposal of many cases of long standing, so that the number pending does not now include Suits of two or more years' duration.

15. The following Table gives the average duration of cases tried in the several Courts, Original and Appellate, in the year under report as compared with the previous year.

	1044.		1045	
	Average duration.		Average duration.	
	Months.	Days.	Months.	Days.
APPEAL COURT.				
Appeals and Special Appeals.	4	7	5	9
ZILLAH COURTS.				
Appeals..........................	1	18	1	0
Original Suits....................	8	1	6	6
MOONSIFFS' COURTS.				
Original Suits....................	1	28	2	4

16. The result is somewhat unfavorable as regards the operations of the Appeal Court, but this is explained by their disposal of several old cases during the year, the duration of which has necessarily entered into the above average. It is nevertheless better than the result obtained in the last six years, the average duration of Suits decided within that period being 6 months and 28 days.

17. The average value of a Suit instituted in the Zillah Courts was Rs. 902 against Rs. 774 in the previous year, and in the Moonsiffs' Courts Rs. 45 against Rs. 56.

18. The Institution Fees collected in the Original and Appellate Courts amounted to Rs. 40,105 and Stamp Penalties to Rs. 18,798, making a total of Rs. 58,903 which is in excess of the collections of the previous year by Rs. 5,935.

19. The Original Suits instituted in the different Courts may be classified as follows:—

Suits for money on written promise or contracts, or on account stated	4,515
Suits for rent	245
Suits for personal property or for the value thereof..	246
Suits for damages for defamation or other injury ...	14
Suits for division of property	11
Suits relating to real property	451
Other Suits	17
Total	5,499

20. There were 53 Civil Miscellaneous Petitions pending at the commencement of the year and 1,170 were received, giving a total of 1,223. Of these 1,164 were disposed of leaving a balance of 59 at the close of the year.

CRIMINAL JUSTICE.

21. The Files of the Lower Courts have been somewhat larger than in the two previous years. The committals to the Courts by the Police and Magistracy in the year under review were 94, whereas in 1044 they were only 87 and in 1043 the number was 92.

22. The number of cases referred by the two Zillah Courts to the Appeal Court was 19, or 9 more than in

the previous year, and one case remained undecided at the commencement of the year. Of these 18 were disposed of and two were pending.

23. The number of persons committed for trial to the Criminal Courts was 191, which shows a decrease of 59 as compared with the year 1044.

24. Exclusive of those whose cases were referred to the Appeal Court, 151 persons were dealt with by the Criminal Courts, of whom 61 were convicted and 90 acquitted or discharged. The convictions are in the proportion of about 40 per cent to the total number dealt with.

25. In referred cases, including those remaining on the File of the previous year, there were 54 persons involved. Of these 18 were convicted, 18 acquitted, and 18 were awaiting decision at the close of the year.

26. There were five cases of Murder tried and decided during the year. Of the accused in these cases one was convicted and sentenced to capital punishment, and the others were acquitted. The particulars of the punishments awarded in all the other cases are given below:

Imprisoned	48
Fined	7
Imprisoned and Fined	19
Flogged	3
Imprisoned and Flogged	1
Ordered to find security	8
	86

27. The average time between commitment to the Criminal Courts and disposal by them was 19 days, which is 6 days above the average of the previous year.

28. The time occupied in referred cases between date of reference and disposal averaged 50 days, which is nearly the same as in the previous year.

29. There were but 7 Appeals from the sentences of the Criminal Courts, against 15 in 1044. The number of prisoners appealing was 18; the sentences passed on 9 of them were confirmed or modified, those on two others were reversed, and 7 prisoners were awaiting the final orders of the Appeal Court at the close of the year.

Police.

30. The total number of cases which came before the various Police Officers was 1,509 or 53 more than in the previous year, and the number remaining undisposed of at the beginning of the year under review was 21, making 1,530 cases.

31. Of these cases 286 were dismissed summarily without calling for the attendance of the accused, 1,234 cases involving 3,172 persons were disposed of after summonses had been issued to the defendants, and 10 cases in which 42 persons were concerned remained undecided at the end of the year.

32. Of the cases disposed of as aforesaid 563 cases involving 1,638 persons were dismissed for want of evidence, and 217 cases, in which 483 persons had been charged with various petty offences, were compromised by the parties.

33. The number of cases committed to the Criminal Courts was 94 which is 10 more than the commitments in the previous year. The offenders concerned in them were 191 or 60 less than in 1044.

34. Convictions followed in 360 cases, and of 860 persons concerned in them 735 were punished and 125 discharged.

35. The nature of the punishments awarded was as follows:—

	Persons.	Amount of Fine.
Fined	698	Rs. 3,231
Imprisoned	25	
Flogged	9	
Flogged and imprisoned	3	
Total	735	

36. The fines on 113 persons amounting to Rs. 1,614 were imposed in referred cases under the special orders of the Magistracy.

37. The period of imprisonment awarded to one of the offenders was in excess of one month, and this sentence as well as the punishment of whipping, which the subordinate Magistrates were not competent to inflict, were carried out under the orders of the Dewan and Dewan Peishcar in referred cases.

38. The average duration of cases disposed of by the Police Officers shows a slight improvement as compared with the past year, being 13 days from the date of charge and 12 from that of the apprehension of the offenders. These periods were respectively 15 and 12 days according to the last Report.

39. There were 7 cases of Murder, in which 20 persons were implicated, reported to the Police during the year all of which were committed to the Criminal Courts. In the previous year four cases were reported to have occurred, of which three were committed and one dismissed for want of evidence.

40. Five cases of Gang Robbery were complained of in the year under review, of which 3 were committed to the Criminal Courts. One case was dismissed as there were not sufficient grounds for committal, and in the remaining case the perpetrators were not apprehended.

41. The cost of the regular Police force has remained unchanged, the average being Rs. 62-3-7 per man on the whole force and 7 pies per head of the population, as at the period of the last report.

42. No fires of an extensive nature have to be recorded during the year under report, such accidents having been confined to isolated instances.

Jails.

43. The number of Prisoners in the Jails at Ernacollum and Trichoor at the beginning of the year under report was 279, and the number of those received during the year was 262, making a total of 541.

44. Of this number 273 were released, 1 escaped, 4 died, and 263 remained at the close of the year.

45. Of the 263 Prisoners in the two Jails on the last day of the year, 8 were Civil debtors, 32 prisoners under trial, 1 a revenue prisoner, and the remaining 222 were convicts of whom 10 were females.

46. The sentences awarded to the convicts are as follows:—

Rigorous imprisonment for life..........	32
Ditto for more than 7 years..........	81
Ditto for more than 2 years..........	79
Ditto for more than 6 months..........	16
Ditto for not more than 6 months	2
Simple imprisonment for more than 6 months..............................	3
Ditto for not more than 6 months...	9
Total...	222

47. The expenses of the Jails, exclusive of the cost of European Medicines and medical attendance, were

For diet and clothing.........	Rs.	10,979	13	1
Guards, &c...............	,,	3,547	8	0
Repairs....................	,,	1,749	3	4
Total	Rs.	16,276	8	5

48. The cost is less than that incurred in the previous year by Rs. 1,179—13—4.

49. The following particulars have been furnished by Dr. Whitton, the late Medical Officer to the Cochin Government, in his annual report.

50. Ernacollum Jail:—There have been 68 admissions into the Hospital during the year. The prevailing diseases were fever, diarrhæa and psora, of which 18, 16 and 12 cases were respectively admitted.

51. The health of the prisoners was, on the whole, very good and but one death occurred.

52. The cases of sickness in this Jail during the year have been very mild, and there has been no epidemic disease.

53. TRICHOOR JAIL:—The returns from the Jail at Trichoor show that the number of admissions into the Jail Hospital was 106. The prevailing diseases were intermittent fevers, boils, diarrhæa and rheumatism, and the cases were numerically 31, 23, 14 and 8.

54. There were three deaths, one from rheumatism, one from diarrhæa and one from dysentery.

55. One case of cholera occurred, a mild case, and the patient recovered. No case of small-pox occurred amongst the Prisoners.

56. The average daily number of Prisoners in the Ernacollum Jail was 110 and of those in the Trichoor Jail 145.

57. No change was made in the diet of the Prisoners which has been reported to be suitable, and their employment is confined principally to the construction or repair of roads and other public works.

Land Revenue.

58. The revenue realized under this head in each of the past five years will be seen from the comparative statement given in the margin.

1041	Rs.	5,84,954
1042	„	5,90,243
1043	„	5,96,328
1044	„	6,00,721
1045	„	6,01,611

59. In the year under report there has been some falling off in the receipts owing to a portion of the Trichoor Lake not having been cultivated through the unfavourable state of the season, and the remission of tax on other lands in the same locality in consequence of the crops being destroyed by insects.

60. This deficiency has, however, been made up and a small increase of Rs. 889 realized over the income of the previous year, by new assessments made on reclaimed lands and the permanent settlement of others formerly held on short tenures.

61. The rainfall during the year was above the average and to a great extent unfavorable to the sowing and maturing of the rice crops. The large importation of rice through the Port of British Cochin, and in the Monsoon months, through Narrakal has proceeded steadily, and this accession to the staple food of the people promises to continue and preclude all apprehensions of scarcity.

62. The average price of produce generally was moderate, and labour being in fair demand, the condition of the working classes might be assumed to have been on the whole favorable.

63. The health of the country was generally good, except in the Tallapully District where Cholera prevailed with considerable violence in June and July 1870.

64. Murrain was less prevalent than in the previous year 1044, and the loss of cattle was comparatively insignificant.

65. It is to be regretted that of the 13 Coffee Estates formed on the Nelliampathy Hills no attempt was made, in some cases, to clear and plant them, and in others operations have been abandoned after they had been carried on to a greater or less extent. In two instances the Leases were surrendered and the arrears of tax due were written off by order of His Highness the Rajah. The demand for waste land, however, affords

good grounds to hope that the abandoned Estates will be taken up, and that enterprise and captial will not long be wanting to develope all the available resources of these Forests.

66. Considerable progress has been made in opening up six of the Estates, which are for the most part in a flourishing condition and will in time yield very satisfactory returns.

67. The construction of the road, referred to in the last Report, from the foot of the Nelliampathy Hills to the Coodaloor frontier, with a view to facilitate the conveyance of the produce of the Coffee Estates to a suitable market, has been completed during the year, and it has proved of material advantage to the planting interests.

68. The improvement of the communication from the Estates to the foot of the Hills was also commenced in the year under report, and the work will be vigorously prosecuted.

Customs.

69. There is a decrease in Customs revenue of Rs. 8,243 13 1, as will be seen from the statement given in the margin. But as, under the terms of the interportal arrangement, the income of the Sirkar from this source is dependent mainly on the receipts at the Port of British Cochin, the deficiency in question is the natural result of the fluctuations of traffic at that Port.

1044	Rs.	1,15,099	11	5
1045	„	1,06,855	14	4
Decrease		8,243	13	1

70. The following statement shows how the Sirkar's revenue has been derived:—

The moiety of the Customs receipts of British Cochin for the year ending 31st March 1870, and the whole of the Import duty on Tobacco for the same period	Rs.	44,377	11	4
Receipts at the Cochin Ports for the same period	Rs.	11,025	10	10
Amount paid by the British Government on account of the Guarantee	Rs.	55,096	9	10
	Rs.	1,10,500	0	0
Receipts at the Cochin Ports between the 31st March and the end of the Malabar year 1045 (14th August 1870)	Rs.	2,804	4	11
Export duty on Pepper	Rs.	343	12	0
Total	Rs.	1,13,648	0	11
Deduct receipts at the Cochin Ports between 31st March 1869 and the end of the Malabar year 1044	Rs.	6,792	2	7
Customs revenue of 1045	Rs.	1,06,855	14	4

71. The importation of tobacco through the Sirkar's Ports has been extinct for several years past, and the quantity required for local consumption is obtained from the imports into British Cochin.

72. The Licenses issued for the sale of this article yielded Rs. 9,245, or Rs. 590 over the receipts of the previous year.

1044 Rs. 8,655
1045 „ 9,245

Abkarry and Opium.

73. The yield of the Abkarry Farm amounted to Rupees 31,860, showing an increase of Rupees 2,851 over the receipts of the previous year, and being in excess of the average income of the past six years.

1044	Rs.	29,009-2-4
1045	,,	31:860-6-7
Diff.	,,	2,851-4-3

74. The Opium Farm realized Rupess 7,000 which is lower than the receipts of the previous year by Rs. 1,450.

1044	Rs.	8,450
1045	,,	7,000
Diff.	,,	1,450

Salt.

75. The receipts under this head show a considerable increase over those of 1044, the difference being Rs. 37,637.

1044	Rs.	1,42,663	2	6
1045	,,	1,80,300	11	2
Diff.	,,	37,637	8	8

76. This may be accounted for partly by the establishment, towards the close of 1044, of new Banksalls in various localities which tended to bring this necessary of life within the reach of a large number of the population who did not previously possess facilities for purchasing it.

77. Independently of the increased consumption arising from the cause above stated, the selling rate was enhanced from Rs. 1 11 to Rs. 2 per maund, for ten months in the year, which must also have contributed to swell the receipts.

78. The cost to the Sirkar for the purchase of Salt shows a decrease of Rs. 12,927, which is solely attributable to the price paid in the year under report having been lower than that paid in the preceding year.

1044	Rs.	52,222	9	6
4045	,,	39,294	15	5
		12,927	10	1

Education.

79. In reviewing the progress of the High School at Ernacollum during the year, there is no material change to notice either as regards the course of studies or the general establishment.

80. The number of students slightly exceeds that on the Register at the period of the last Report, and the castes or classes into which they were distributed have been but little affected.

81. Any considerable increase at present in the attendance at the High School was scarcely to be expected, as the opening of new District Schools would largely attract beginners in their immediate neighbourhood, and it is only when these have attained some proficiency in their studies that they would prefer to enter the more distant and central institution. It may be anticipated, however, that the District Schools will gradually prove the means of imparting a useful preparatory training to their pupils, and become feeders to the principal establishment at Ernacollum.

82. During the year the new High School Buildings were opened by His Highness the Rajah in person, and the ceremony was viewed with deep interest by the public. The Sirkar has spared no pains to provide needful facilities for the education of its subjects in the higher branches of knowledge, and it is hoped these advantages will be duly appreciated, and the means of instruction placed within their reach widely availed of by all classes of the people.

83. In this year students from this School competed, for the second time, at the University Examinations, and the names of four successful candidates may now be added to those of the two who passed in the previous year. The second Master S. Sivarama Pillay, and the Head Master's assistant Baker Fenn passed the F. A. Examination.

84. The present number of students are distributed into the following eleven classes:—

Class I	18	Class VII	25
Class II	25	Class VIII	23
Class III	23	Class IX	25
Class IV	23	Class X	26
Class V	22	Class XI	28
Class VI	26	Total...	264

85. The attendance has been very regular and satisfactory. Cases of absence without leave have been comparatively rare, which is no unfair criterion of the public feeling as to the value and importance of this School.

86. The amount derived from fees in 1044 was Rs. 673, and in the year under report Rs. 939, exhibiting a considerable increase, which is due in some degree to the larger attendance and partly to the enhanced rate of fees, though the latter is more moderate than the ordinary charge for education in institutions offering similar advantages.

87. The periodical examinations in July and December were held in the usual manner, and one feature of these examinations, not unworthy of notice, is that

gentlemen competent to the task are promiscuously invited to search the capabilities of the students, and the results of their independent judgment may be fairly presumed to afford a truer test of the advancement of the School than a more cursory or partial method. The aid required on these occasions has been willingly and gratuitously afforded, and it is necessary that I should record the thanks of the Sirkar to those who have for successive years assisted at the examinations.

88. The receipts and expenditure of the School exclusive of fixed salaries, in the year under report and the previous year will be seen from the subjoined comparative statement.

RECEIPTS.	1044			1045			DISBURSEMENTS.	1044			1045		
	Rs.	A	P	Rs.	A	P		Rs.	A	P	Rs.	A	P
By Fees..............	674	12	0	939	8	0	To Books and Stationery.........	907	9	4	1730	5	7
„ Fines..............	73	12	0	78	14	0	„ School repairs furniture, &c.	10	3	10	86	5	0
„ Book sales &c....	611	6	0	625	9	6	„ Extra Teachers' salaries...	286	5	4	0	0	0
„ Sirkar remittances..........	0	0	0	400	0	0	„ Contingencies....	109	0	0	191	15	11
Total Rs...	1359	14	0	2043	15	6	Total Rs...	1026	13	2	2008	10	6

89. The enlargement of the Sirkar's Book Depot to meet the growing requirements of the District Schools accounts for the increased sum expended under the head of Books, whilst the Fines which, under the Sirkar's sanction, have been carried to the credit of the Educational Fund, show an increase under the head of contingent charges.

90. The state of the educational Fund, as far as it refers to private support, is not at present as encouraging as might have been expected, but it is to be hoped that a proper spirit among the pupils will not suffer this Fund to fail in its objects. By its means many youths have been enabled to remain at the School, whose resources would not otherwise have permitted them to do so, and private feeling will no doubt supplement the action of the Sirkar. It has been already stated that the proceeds of penalties have been assigned to this purpose.

91. The English School at Trichoor is making good progress and the minor schools are doubtless of great advantage to the residents of the more remote stations.

Public Works.

92. Considerable progress has been made in this Department which was organized towards the close of the past year, under the superintendence of Mr. Morris the Civil Engineer, as will be seen from the following statement of the principal works commenced, completed, or in progress during the year under report.

Works.	Expenditure in 1045.			Total.		
	Rupees.	A.	P.	Rupees.	A.	P.
Roads from Trichoor to Karrapadna, Cherroothoorthy and Waniempara, including cost of culverts....	25,381	15	2

93. The total outlay on Public Works in the year under report exceeded that of the previous year by Rupees 48.180 3 10.

Forests.

94. The operations of this Department during the year under review will be seen from the subjoined statement.

95. In this year 1,526 Teak and Blackwood Logs and Teak Taldoms, measuring 2,779$\frac{1}{16}$ Candies, were received at the depots at Ernacollum and Ponany, showing an increase over the previous year of 174 Logs aggregating 179$\frac{1}{16}$ Candies.

96. The quantity of timber sold in the year and that appropriated to public purposes was 2,134¼ Candies, of the aggregate value of Rs. 31,234 7 2. This quantity is 701⅜ Candies less than that sold or used in the previous year, and shows a deficiency in the amount realized of Rs. 14,901 9 11.

1044	Rs.	46,136	1	1
1045	,,	31,234	7	2
Difference		14,901	6	11

97. The diminished receipts are attributable to the fact that there was no sale of Blackwood at the Ernacollum depot nor of any timber at Ponany during the year, the prices offered not having been advantageous.

98. The number of trees other than Teak, Blackwood and Ebony, which are royalties, felled by private individuals on payment of Kutikanom or Seignorage was 10,164, and the amount received on this account was Rs. 8,275 11 8, which is less than the receipts of the previous year by Rs. 380 12 4.

99. The sale of sundry produce and other miscellaneous items of revenue yielded Rs. 4,127 12 0 against Rs. 5,909 13 1 in the previous year, showing a decrease of Rs. 1,782 1 1.

100. The total revenue derived through the agency of the Forest Department was,

In 1044	Rs.	60,702— 6— 2
1045	,,	43,637—14—10
Decrease	Rs.	17,064— 7— 4

101. The amount paid by the Chittoor Kanom contractor for the Teak timber removed by him from the Chittoor Forests was Rs. 12,051, being less than the payment of the previous year by Rs. 639.

102. The Acting Conservator reports that the last was a very unsuccessful season for capturing elephants. One female was caught but died soon after from injuries received in the pit. Three working elephants died.

Ports and Harbours.

103. Since the interportal arrangements came into operation, the shipping at Mallipooram has declined, and in the year under report it has been confined to the Pattimars bringing Salt for the Sirkar, and a few French Vessels which touched at the Port with general cargoes en route to Bombay.

104. The tonnage at Narrakal, however, has considerably increased as will be seen from the Return No. XXXIV given in the Appendix.

105. The number of Vessels which resorted to the Port during the year was 27 and their aggregate tonnage was 18,620, against 25 Vessels and 15,484 Tons in 1044 and 14 Vessels and 8,315 Tons in 1043.

106. These Vessels consist principally of the subsidized Mail Steamers of the British India Steam Navigation Company which seek the shelter and safety of the Narrakal roadstead during the Monsoon months.

107. The collections on account of Port dues amounted to Rs. 1,377 9 0 or Rs. 523 10 0 more than in the previous year.

Post Office.

108. The number of communications, &c. sent on the public service in 1045 and the previous year, is given below:—

	1044.		1045.
Letters	43,134	...	49,318
Newspapers	95	...	2,992
Books	219	...	336
Banghy parcels	491	...	1,226
Total	43,939	...	53,872

109. The number of private letters and parcels conveyed by the post was,

	1044.		1045.
Letters	12,891	...	14,856
Newspapers	804	...	1,770
Books	15	...	7
Banghy parcels	89	...	63
Total	13,799	...	16,696

110. The total receipts from the latter source amounted to Rs. 616-3-1, and the cost of the Department to Rs, 3,061-10-8.

111. Although the expenditure has remained stationary, it will be observed that the correspondence, &c. both official and private, have largely increased.

Military.

112. The small force maintained by the Sirkar calls for no remark. No change has occurred in the numbers or economy of the force.

Medical.

113. During the past year the number of admissions, as in-patients, to the Sirkar's Hospital at Ernacollum was 197, and the number of out-patients was 2,228.

114. There has been a decrease of 36 in the number of in-patients, as compared with the previous year, but an increase of 138 in the out-patients.

115. The prevailing diseases amongst the former were ulcers, of which there were 39 cases, dropsy 38 and diarrhæa 19; and amongst the latter vermes occurred in 531 cases, dropsy in 243, diarrhæa in 179, ulcers in 133 and syphilitic diseases in 104 cases.

116. The number of deaths recorded amongst the in-patients was 7, three being the result of extensive ulcers producing total exhaustion of the vital powers, two caused by dysentery, one by anasarca and one by diarrhæa.

117. No case of cholera or small-pox was treated at the Hospital. The health of the Town of Ernacollum has generally been very good.

118. Dr. Whitton attributes the diminished number of in-patients at the Hospital to the fact, that the time of the Senior Apothecary Mr. Gunther was occupied for a great part of the year in attendance at the Palace during the illness of His Highness the Rajah.

119. The new Civil Dispensary at Trichoor, which was under construction at the date of the last Report, is nearly completed, and it is proposed to place it in charge of Dresser Annapillay, now doing duty at the Jail, whose conduct has been favorably reported on by Dr. Whitton.

120. From the Return of Vaccination given in the Appendix it will appear that the number of operations performed during the year was 10,421, of which 9,500 were reported as successful and 921 unsuccessful.

121. These results are reported to be satisfactory, and the vaccinators appear to have been doing good work during the year. The expediency, power, of appointing an itinerant Superintendent to supervise the work of the vaccinators is fully appreciated by the Sirkar.

122. The immunity from small-pox which has marked the year under review affords perhaps no unfair criterion of the successful effects of vaccination.

123. The establishment maintained for this duty has been unchanged, and the cost remains at the same figure as at the close of the previous year, viz. Rs. 1,716.

Press.

124. The value of the work done at the Sirkar Press during the year under report is estimated at Rs. 2,794–11–3 against Rs. 3,829–0–1 in the previous year.

125. No change has been made in the establishment, the cost of which remains at Rs. 1,116. There is also no addition to notice in the stock of printing materials.

Population.

126. The Census taken in the year $\frac{1032}{1856\text{–}57}$ M. E. by which the number of inhabitants was returned as 399,056, still continues the criterion of the population of this State.

127. A more accurate numeration will no doubt be obtained by a new Census at this distance of time, and arrangements for that purpose are engaging consideration.

Financial.

128. The Receipts and Disbursements for the year under report as compared with those of the previous year will be seen from the following Statement:—

RECEIPTS.	1044			1045

Balance to be carried to the credit of the succeeding year.................	4,97,380	7	8	5,39,775	13	8
Grand Total..	17,26,062	8	2	16,88,518	6	10

129. The regular sources of revenue have been already noticed. It remains to refer to the Miscellaneous Revenue which exceeds that of the previous year by Rs. 17,726 - 15 - 6.

130. This excess is attributable mainly to increased receipts under various heads, of which may be mentioned Judicial fees and penalties, fees on the renewal of old Deeds and arrears of revenue; the last item consisting of the rent of certain Coffee Estates which was recovered and brought to account in the year under report.

131. The interest on Rs. 1,50,000, invested in Government Securities towards the close of the previous year, has also contributed to enhance the Miscellaneous revenue.

132. In the Disbursements there is an increase under the head of Palace expenses of Rs. 1,833 - 5 - 4. This has arisen in consequence of the additional allowance to His Highness the fifth Prince having been paid for the whole of the year under report, whereas it was paid only for a portion of the previous year.

133. An incraese of Rs. 1,041 - 12 - 6 appears in the expenses on acconnt of Religious and of Rs. 1,730 - 7 - 9 on account of Charitable Institutions, which is due to the enhanced prices of provisions during the year.

134. The increase of Rs. 13,384 - 10 - 3 in the cost of the Administrative Establishment is owing to increased salaries having been granted to the Officers and Servants of the Educational, Public Works and other Departments.

135. A similar augmentation of the salaries of Judicial Officers will account for the increase of Rs. 451 - 14 - 0 in that Department; and the increased ex-

penditure in the Military establishment of Rs. 1,242-13-1 is also due to the pay of the men composing the force having been raised to a corresponding extent.

136. The cost of the Police Establishment has undergone no variation.

137. The increase under the head of Pensions of Rs. 1,415-7-3 is owing to a pension having been granted to the late Dewan Peishcar who retired from the service in the latter part of the year under report, and also to pensions paid to some of the minor public servants during the year.

138. The expenditure on account of Public Works in the year exceeded that of the previous year by Rs. 48,180-3-10. This is owing to works of an important and expensive character having been undertaken and proceeded with, the principal of which are the reconstruction of the high road from Carroopadanah to Shoranoor and from Trichoor to Wanianparrarh, the erection of a Palace for H. H. the 3rd Prince, and of a new Dispensary and Court House at Trichoor.

139. The nature of the other Public Works will be seen in detail under the proper head.

140. The Miscellaneous Expenses exhibit a decrease of Rs. 1,49,220-1-4, notwithstanding the extraordinary charges arising from the visits paid to His Highness during the year under review by His Highness the Maharajah of Travancore on his way to and from Madras through the Cochin territory,—the visit of His Highness the Elliah Rajah to the Presidency on the arrival of His Royal Highness the Duke of Edinburgh,—and the investiture of His Highness the Rajah with the Insignia of the Most Exalted Order of the Star of India.

141. This apparent decrease is however easily accounted for by the fact that the sum of Rs. 1,50,000 invested in the previous year in Government Securities was carried to account as Miscellaneous Expenditure, and that other items of expense which entered into this head in 1044 are absent from the disbursements of the year under report.

142. The total Receipts of the year amounted to Rs. 11,91,137 - 15 - 2, and are in excess of those of the previous year by Rs. 33,920 - 14 - 11.

143. The Disbursements amounted to Rupees 11,48,742 - 9 - 2, and are less than those of the previous year by Rs. 79,939 - 7 - 4. This decrease however is more apparent than real, and but for the investment of Rs. 1,50,000 alluded to in para: 141 the actual disbursements during the year would have been in excess of the year preceding by Rs. 70,060.

144. The total revenue of the year under report was in excess of the expenditure by Rs. 42,395 - 6 - 0, and the cash balance in the Treasury shows a corresponding increase at the end of the year.

145. The total amount to the credit of the Sirkar at the close of the year 1045, as shown in the margin, is Rs. 21,19,009-4-7.

Cash Balance in the Treasury	Rs.	5,39,775-13- 8
